PROFESSIONAL SUMMARY

Cybersecurity and technology enthusiast with strong skills in HTML and good knowledge of Python, SQL, Microsoft Excel, and Power BI for data analysis and visualization. Experienced in developing web interfaces and working with data-driven solutions. Highly interested in Python full-stack web development, cybersecurity, and data analytics, with a focus on building efficient applications and solving real-world problems through innovative technology.

EDUCATION

Bachelor of Engineering (CSE-CYBER SECURITY), Prathyusha Engineering College CGPA: 8.3	2023 – 2027 Tiruvallur
Intermediate (MPC), VIT Junior College Percentage:88	2021 – 2023 Narasaraopeta
(SSC), Oxford High School Marks:600/600	2020 – 2021 Narasaraopeta

TECHNICAL SKILLS

Programming Languages Python, SQL	Data Analysis & Visualization Microsoft Excel, Power BI
Web Technologies HTML	

PROJECT

Smart Transport Tracking and Management System, HTML,Python	01/05/2025
- Developed a live transport tracking system that allows users to monitor real-time vehicle locations and estimated arrival times (ETA), improving the efficiency of urban public transportation. - Implemented file security using cryptographic hash algorithms (SHA-256) to ensure data integrity and detect unauthorized modifications in files. - Designed and built a responsive web dashboard using HTML and Python, enabling centralized monitoring and management of public transport vehicles with a user-friendly interface.	

CERTIFICATIONS

- Machine Learning Using Python – Simplilearn | 2026
- Generative AI Literacy - Future Skills Prime | 2025
- Cybersecurity Analyst Job Simulation – Forage | 2025
- Pre Security Learning Path – TryHackMe | 2026
- Machine Learning Onramp – MathWorks | 2025
- Deep Learning Onramp – MathWorks | 2025
- Advanced Python – Simplilearn | 2026
- Front End Web Developer Certification – Infosys Springboard | 2025
- TCS iON Career Edge – Young Professional | 2025
